

You are cordially invited to

Be Inspired
Innovations in Infrastructure
Conference

Presented by Bentley Systems

November 13th-14th, 2012
NH Grand Hotel Krasnapolsky
Amsterdam, Netherlands

Dear Valued Bentley User:

Come "*Be Inspired.*" Senior management executives from the world's top AECO organizations will gather in Amsterdam for this premier annual conference to partake in the exchange of ground-breaking ideas and best practices that drive the world's infrastructure.

As stewards of the design, construction and operations of infrastructure, you know that innovation and best practices are essential to the delivery of successful, safe and sustainable projects.

Be Inspired is your opportunity to immerse yourself in two days of networking with industry experts, with interactive roundtable discussions and presentations, and to experience innovation through technology in action; real projects, real people, real inspiration!

This invitation-only conference also features presentations by *Be Inspired Awards* finalists – representing the world's top infrastructure projects of 2012 as chosen by an international jury of independent experts. Rounding out the event, the award competition winners are recognized during an elegant 5-star awards dinner.

We look forward to seeing you at *Be Inspired!*

Advance registration is required, so please register for the Be Inspired conference by October 12, 2012. To register or for more information visit www.bentley.com/BeInspired
